

Applicant Name	Applicant Type	Applicant State	Grant No	Cumulative Award	Award Date	Project Title	Project Description
Alaska Forum Inc.	Not for Profit	AK	00J92701-0	\$200,000.00	9/15/2014	Environmental Workforce Development and Job Training Grant for Alaska Forum, Inc	This project provides funding for Alaska Forum to recruit, train, and place unemployed and underemployed residents of Alaska in environmental careers with skills needed to safely conduct remediation work at solid and hazardous waste-contaminated sites, as well as appropriate training in wastewater management and chemical safety.
Alaska Forum Inc.	Not for Profit	AK	01J23201-0	\$200,000.00	8/16/2016	AFI Brownfields Environmental Workforce Development and Job Training FY16	This project provides funding for Alaska Forum, Inc. to recruit, train, and place unemployed and underemployed residents of Alaska in environmental careers with skills needed to safely conduct remediation work at solid and hazardous waste-contaminated sites, as well as appropriate training in wastewater management and chemical safety.
Alaska Forum Inc.	Not for Profit	AK	00J62001-3	\$150,000.00	11/20/2015	Community Environmental Education Stewardship through Youth Involvement	This grantee will implement a community environmental education stewardship program with youth involvement. Subgrant proposals from Alaska, Idaho, Oregon, and Washington will be solicited from small communities who seek to foster youth involvement in their environmental stewardship efforts. Proposals will be selected where youth are matched with a local environmental professional or teacher who will mentor youth as they address a specific problem in the community and work to solve it.
Alaska Native Tribal Health Consortium	Not for Profit	AK	00J51001-6	\$415,401.00	6/16/2016	ANTHC Community Environmental Demonstration Project	Conduct subaward grant program for multi-media Alaska Tribal government demonstration projects. Recipient will provide technical assistance and oversight for sub-award projects, and encourage environmental results at the village level across Alaska.
Alaska Songbird Institute	Not for Profit	AK	01J12101-1	\$90,631.00	8/16/2017	Environmental Education Grant	Recruit and train students, teachers, and other volunteers to collect, analyze and present ecological data on climate-change impacts to nesting tree swallows. Goals are to monitor 4 existing swallow nests and establish and monitor 6 additional swallow nesting sites. Enter data into a project website, present their data findings to their communities using a variety of outreach methods, and presentations at professional conferences. Second field season focus will be to continue and strengthen the project across the 10 nesting sites within the urban Alaskan communities.
University of Alaska - Anchorage	State Institution of Higher Learning	AK	01J37101-0	\$32,615.00	9/17/2017	Regional Wetlands Development Program	The Alaska Center for Conservation Science - University of Alaska, Anchorage proposes to attribute an existing NWI wetlands map with hydrogeomorphic descriptors (LLWW) and if possible infer potential wetland function from the collective consideration of these indicators.
University of Alaska - Anchorage	State Institution of Higher Learning	AK	01J11301-1	\$99,878.00	4/22/2016	Regional Wetland Development Grant	The project will produce a map of wetlands in Alaska, with particular emphasis on rare wetlands. This will be accomplished with Refinement of the existing wetland map; Preparation of National Wetland Inventory plot data; Production of metadata; Review of literature pertaining to rare wetland types; Description, ranking and mapping of rare wetlands; Recommendations for field study; Development of a wetland data portal; Reporting, Presentation of results; and Manuscript preparation. □ □ This assistance agreement is partially funded, see Administrative Condition #6. The Federal share of this award reflects the amount of the rescission required by Public Law 113-235.
Zender Environmental Health and Research Group	Not for Profit	AK	01J06601-0	\$192,300.00	9/8/2015	Zender Job Training	This project provides funding for Zender Environmental to recruit, train, and place unemployed and underemployed residents of rural Alaska Villages in environmental careers with skills needed to safely conduct remediation work at solid and hazardous waste-contaminated sites, as well as appropriate training in wastewater management and chemical safety. Some of the classes include: Water & Soil Sample Collection, Spill & Emergency Response, Hazard Communication, Rural Alaska Landfill Operator Training, Solid Waste Management & Resource Recovery & Recycling, First Aid, Village Flood Response & Debris Removal, and Sediment Erosion & Control.
Zender Environmental Health and Research Group	Not for Profit	AK	01J37801-1	\$200,000.00	10/3/2017	Zender Rural Alaska Community Environmental Job Training FY17	This project provides funding for Zender Environmental to recruit, train, and place unemployed and underemployed residents of Rural Alaska Villages in environmental careers with skills needed to safely conduct remediation work at solid and hazardous waste-contaminated sites. Participants will complete training in Occupational Health Health and Safety, hazardous waste and Superfund Remediation.
Zender Environmental Health and Research Group	Not for Profit	AK	00J51101-6	\$379,749.00	9/22/2016	Zender Environmental Health Group	Administer subaward grant program for several multi-media Alaska Tribal government demonstration projects. Recipient will provide technical assistance and oversight for subawards, and encourage environmental results at the village level in Alaska. Recipient will mentor village project and collect local reports, which will be compiled and summarized into quarterly reports for EPA. Recipient will present to a wider audience in Alaska so that knowledge of innovative approaches can be shared among Alaska Tribes.
Rural Community Assistance Corporation	Not for Profit	CA	01J21401-3	\$514,767.00	9/27/2017	Region 10 EPA Environmental Finance Center	The Environmental Finance Center (EFC) is to provide multimedia environmental finance expertise and outreach to regulate communities (e.g., states, tribes, local governments, and private sector entities) to help them meet environmental requirements. The objective is to help the regulated parties in these communities find effective and innovative ways to help address the growing costs of protecting public health and the environment in a sustainable and equitable manner.

Applicant Name	Applicant Type	Applicant State	Grant No	Cumulative Award	Award Date	Project Title	Project Description
Friends of the Teton River	Not for Profit	ID	01J12001-0	\$91,000.00	11/19/2015	Teton County WaterWise Initiative	This project will educate students and adults in Teton County on the importance of maintaining clean drinking water as part of a WaterWise Community Education program. At least eight adult educational events/workshops will be developed and implemented which focus on what individuals can do to protect drinking water, e.g., testing for nitrates in drinking-water wells, how to prevent backflow from residential irrigations systems, and the proper use and maintenance of individual residential septic systems. Students will learn about water quality and how to take field water quality measurements, go on field trips, and participate in an annual Water Festival.
Regents of the University of Idaho	State Institution of Higher Learning	ID	01J05401-0	\$91,000.00	7/1/2015	Environmental Education: RU ID	The confluence project will serve a total of 200 students, 10th-12th grade, across six high schools in diverse communities. A summer workshop for teachers in field experiences will be held. High school science classes will participate in three field experiences over the course of the year; each supported by pre and post lessons, and a service learning, restoration, or agriculture field experience. Students devise their own investigations and propose solutions to problems encountered based on the data that they collect, and present their findings at the Youth Water Summit.
Wilderness Science Education	Not for Profit	ID	01J36501-0	\$91,000.00	9/27/2017	CREST-Central Idaho Rural Environmental Stewardship Team	This project will create a sustainable Central Idaho watershed program that reaches students, trains educators, and engages the community using place-based restoration projects in schools, range and forest locations on private and public land. The applicant will target 550 K-12 public school students and teachers in six rural, mountain communities. Each student group will work on a place-based watershed education project. Also the students will share the results of their projects to other rural schools, present at several conferences and share digital storytelling videos.
Beyond Toxics	Not for Profit	OR	00J95101-2	\$243,633.00	12/22/2015	Environmental Justice Clean Diesel Project	This project will replace one heavy duty diesel power truck which operates in environmental justice (EJ) neighborhoods in the city of Eugene and in Lane County. The project will also result in installation of advanced exhaust controls on seven heavy duty trucks that are used in the collection and transport of refuse and construction debris in the Portland and Eugene metropolitan areas.
Beyond Toxics	Not for Profit	OR	00J99401-0	\$28,488.00	7/2/2015	New Minority Residents in West Eugene	This project will advance environmental justice education and support capacity building activities in vulnerable minority and low income communities in West Eugene, Oregon. This project will help affected West Eugene residents take necessary steps to decrease their vulnerability to flooding caused by increasingly frequent storms, reduce health risks from exposure to high levels of fine particulate matter, and advance climate resiliency by learning to grow organic, culturally appropriate food for themselves and launching a community garden
Children's Forest of Central Oregon	Not for Profit	OR	01J07801-2	\$90,992.00	8/9/2017	Environmental Education (CFCO)	The applicant and partners will develop and implement a comprehensive watershed education program focused on restoring sections of three different streams in Central Oregon. They will provide classroom activities and hands-on, place based field trips, engage all participants in stewardship projects that improve habitat along the streams; host two watershed summits where the students will present their projects; and develop three student-created outreach films focused on their local watershed and how community members can become stewards of that watershed.
Col Corridor - Columbia Corridor Association	Not for Profit	OR	00J82101-2	\$345,862.00	5/1/2014	Western Oregon Truck Modernization Emissions Reduction Project	This project will replace six 1992 to 1999 model year heavy duty diesel powered trucks used to transport cargo with 2013 model year trucks.
Columbia Corridor Association	Not for Profit	OR	01J25001-1	\$572,522.00	1/4/2018	Western Oregon Fleet Clean Diesel Modernization	This project will replace 10 heavy duty trucks used in goods movement and electrify 43 parking spaces at 3 warehouse locations. NOTE: PRECLUSION OF INCURRING COSTS PRIOR TO PRE-AWARD CERTIFICATION The recipient is hereby precluded from incurring costs under this agreement until it has satisfactorily addressed all remaining issues and has been formally notified by EPA that it has been pre-award certified.
Columbia Corridor Association	Not for Profit	OR	01J40901-0	\$353,584.00	11/9/2017	Pacific Coast Fruit Company Clean Diesel Fleet Modernization	This project will replace ten heavy duty trucks used in goods movement and delivery to and from port facilities, warehouses and retail locations in urban areas.
Corvallis Environmental Center	Not for Profit	OR	00J87201-0	\$200,000.00	6/26/2014	Classrooms Take Charge	This project will serve as a model for creating behavioral change that benefits the environment by innovatively modifying an existing climate change online tool to include educative components for high school students. Oregon Green Schools and the Seattle School District will be involved in the project. Students will be able to see real-time data about their individual actions and how school wide participation in the program collectively reduces CO2 emissions. Teacher workshops will be conducted, and the students will learn through in-class and on-line learning and service learning. This assistance agreement is fully funded and approves a 10% indirect cost flat rate (see Administrative Condition # 22). Programmatic Condition # 9 is also emphasized.

Applicant Name	Applicant Type	Applicant State	Grant No	Cumulative Award	Award Date	Project Title	Project Description
Corvallis Environmental Center	Not for Profit	OR	01J18301-1	\$91,000.00	9/8/2016	Environmental Education	This project will modify an existing online tool originally developed for high school students to include educational components for middle school students in the Carbon TIME (Transformations in Matter and Energy) curriculum. At a multi-day workshop, 15 formal and non-formal middle school educators in three Oregon counties will be provided with strategies to teach "tracing matter and energy through human energy systems". 1,500 middle school students will be involved in the program through in-class, online, and service learning with student-led projects.
Long Tom Watershed Council	Not for Profit	OR	00J47201-2	\$47,000.00	9/5/2014	Amazon Creek Toxics Education and Action	The Long Tom Watershed Council will use new pesticides monitoring data from Amazon Creek and collaborate with a number of diverse committed stakeholders to educate five targeted audiences in the urban and rural areas of the watershed to improve pesticide use and stormwater literacy. This project supports the efforts of the ongoing Amazon Creek Pesticide Stewardship Partnership, the first PSP in an urban and rural setting.
Lower Columbia Estuary Partnership	Not for Profit	OR	00J76201-2	\$1,080,725.00	6/25/2015	Lower Columbia Estuary Project	As directed by Section 320 of the Clean Water Act, this project under the National Estuary Program implements recommendations of the Lower Columbia River Estuary Partnership (LCREP) Comprehensive Conservation and Management Plan (CCMP) to restore and maintain the physical, chemical and biological integrity of the estuary through tasks outlined in the LCREP biennial workplan.
Lower Columbia Estuary Partnership	Not for Profit	OR	01J00001-3	\$1,932,489.00	9/19/2017	Lower Columbia River National Estuary Program	To implement a Trash Free Waters demonstration monitoring project on the Columbia Slough and the Lower Columbia River study area using trained volunteers.
McKenzie Watershed Alliance	Not for Profit	OR	01J38101-0	\$63,840.00	9/12/2016	Watershed Action Teams for Education, Restoration and Stewardship Program	The project will promote student understanding of their local natural ecosystems, awareness of actions taking place to protect local watersheds, and willingness to participate in actions to enhance and conserve local watersheds through field-based scientific inquiry and stewardship projects. The program will involve around 130 secondary students from six rural and urban schools in hands-on, inquiry- and field based watershed stewardship/monitoring projects within Lane County in collaboration with state and federal agencies, watershed councils, private landowners and public utilities.
Metropolitan Contractor Improvement Partnership	Not for Profit	OR	01J08301-3	\$587,583.00	4/4/2017	Metropolitan Contractor Clean Diesel Improvement Project	This project will install verified advanced exhaust controls on 12 vehicles and non-road equipment including dump trucks, rollers and industrial saws and scrap and replace 6 trucks used in construction or freight movement. <input type="checkbox"/> The federal share of this award reflects the amount of the rescission required by Public Law 113-235.
Metropolitan Contractor Improvement Partnership	Not for Profit	OR	01J25901-0	\$237,673.00	9/26/2016	Metropolitan Contractor Clean Diesel Improvement Project Year 2	This project will scrap and replace 4 diesel powered trucks and 2 pieces of non-road diesel construction equipment. It will repower engines on 1 non-road excavator used in construction settings and install a diesel particulate filter on 1 heavy-duty truck.
Metropolitan Contractor Improvement Partnership	Not for Profit	OR	01J41001-0	\$648,097.00	11/21/2017	Metropolitan Contractor Clean Diesel Improvement Project Year 3	This project will scrap and replace 7 diesel powered trucks (5 dray trucks and 2 dump trucks) and 3 pieces of non-road diesel construction equipment; install diesel particulate filters on two diesel trucks.
Northwest Zen Sangha Inc.	Not for Profit	OR	01J11101-0	\$200,000.00	9/29/2015	Dharma Rain Zen Center - H.G. LaVelle Landfill Cleanup - Portland, Oregon	This assistance agreement will provide funding to clean up a Brownfields site at the H.G. LaVelle Landfill at 8500 NW Siskiyou in Portland, Oregon. In 2012, the site was purchased by the Northwest Zen Sangha for conversion into the Dharma Rain Zen Center to establish a temple complex, cultivated open space, and restored native habitat. From 1972 to 1982, the site was used for disposal of construction debris from construction of two major highways in the area. The cleanup plan uses strategies to minimize health and environmental risks including: methane mitigation, landfill cap improvement, targeted soil contaminant removal (heavy metals and petroleum by-products), and stormwater management. <input type="checkbox"/> Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.
Oregon State University	State Institution of Higher Learning	OR	00J79401-1	\$106,260.00	7/19/2016	Pollution Prevention	Provide P2 technical assistance to businesses.
Oregon Tradeswomen Inc.	Not for Profit	OR	01J08101-0	\$192,300.00	8/5/2015	Oregon Tradeswomen, Inc. Job Training FY15	This project provides funding for Oregon Tradeswomen, Inc., to recruit, train, and place unemployed and underemployed residents of Portland, Oregon, in environmental careers with skills needed to safely conduct remediation work at solid and hazardous waste-contaminated sites, as well as appropriate training in wastewater management, integrated pest management, and chemical safety. Training will be provided in Solid Waste Management, Innovative Treatment Technologies, Occupational Health and Safety Administration Safety and Hazardous Waste Training.
Oregon Tradeswomen Inc.	Not for Profit	OR	01J39901-0	\$200,000.00	9/26/2017	FY17 - Oregon Tradeswomen, Inc. Environmental Job Training	This project provides funding for Oregon Tradeswomen, Inc. to recruit, train, and place unemployed and underemployed residents of Portland, Oregon, in environmental careers with skills needed to safely conduct remediation work at solid and hazardous waste-contaminated sites. Participants will complete training in hazardous waste, Occupational Safety and Health Administration training, and Superfund Remediation.

Applicant Name	Applicant Type	Applicant State	Grant No	Cumulative Award	Award Date	Project Title	Project Description
Portland State University	State Institution of Higher Learning	OR	00J88901-0	\$102,000.00	7/25/2014	PSU FY 15 EE Grant	The grantee will provide on-site technical assistance, trainings, resources and pollution prevention evaluations to automotive and landscaping businesses, and expand the Eco-Logical Business Program in under-served communities.
Portland State University	State Institution of Higher Learning	OR	01J05601-0	\$94,377.00	9/15/2015	Pollution Prevention Technical Assistance for Idle Reduction and Electrification	Portland State will contract and partner with other organizations to reduce GHG and other harmful emissions from food manufacturing trucks. □ □ The Federal share of this award reflects the amount of the rescission required by Public Law 113-235.
Portland State University	State Institution of Higher Learning	OR	00J78401-3	\$299,874.00	8/18/2015	Regional Wetlands Program Development Grant	This project works to implement the adopted Oregon Department of State Lands (DSL) 2011-2016 Oregon Wetlands Plan by improving existing planning and conservation tools on the Oregon Wetlands Explorer (OWE) website, by attributing the state's wetland geodatabase with wetlands hydrology information, by the development of three new watershed-based wetland conservation plans, revising the Oregon's Greatest Wetlands database, and completing a statewide guide to wetland and riparian vegetation.
Tillamook Estuaries Partnership	Not for Profit	OR	00J62301-4	\$1,647,333.00	12/18/2015	Tillamook Estuaries Partnership Program	Tillamook Estuaries Partnership (TEP) FY14-15 workplan has 40 projects: research/monitoring, habitat health, development, education/outreach, partner-led, and may add local grant projects. Short term outcomes: completed CCMP actions and increased public support for estuary restoration and TEP's work. Interim outcomes: improved condition of key habitat, pollutant loadings reduction and incremental improvements in water quality, improved floodplain condition, and community environmental awareness. Longer term outcomes: restoration and improved chemical, physical, and biological integrity.
Tillamook Estuaries Partnership	Not for Profit	OR	01J04301-5	\$1,851,000.00	1/18/2018	Tillamook Estuaries Partnership's 2018-2019 NEP Workplan	Tillamook Estuaries Partnership (TEP) workplan has 39 projects that support research and monitoring, habitat health, ecosystem development, education and outreach. The short term outcomes: revisions to the Comprehensive Conservation Management Plan (CCMP) and preparation for a program evaluation. Interim outcomes: Improved condition of key habitat, pollutant loadings reductions, incremental improvements in water quality, improved floodplain conditions, and community environmental awareness. Long term outcomes: restoration and improved chemical, physical, and biological integrity.
Tillamook Estuaries Partnership	Not for Profit	OR	96095201-7	\$2,048,800.00	3/18/2014	Tillamook Estuaries Partnership	The 2011-2012 work plan implements their Comprehensive Conservation and Management Plan (CCMP) and identifies 36 projects that will be undertaken to address research and monitoring projects focused on monitoring water quality and habitat health in the project area, protecting and enhancing in stream and wetland habitat, web site development, annual report design and publication, a climate vulnerability assessment and strategic planning to refocus the CCMP.
Trash for Peace	Not for Profit	OR	01J36801-0	\$28,559.00	9/6/2017	Environmental Justice Small Grants Program	Trash for Peace Sustainability Education Program (TIP SEP) will foster environmental sustainability and stewardship through solid waste disposal education for youth at affordable housing properties. The properties are in areas of Portland have high rates of poverty and lack proper trash disposal and recycling options. Project activities include: implementing weekly SEP activities at four affordable housing sites, reaching approximately 60 youth and over 200 families throughout the year, and recruiting and supervising a minimum of two youth interns in TIP's enviro-business programming.
Western Oregon University	State Institution of Higher Learning	OR	01J35601-0	\$91,000.00	9/28/2017	Fish Eggs to Fry Implementation (FEFI) Project	This project will update an existing salmonid life cycle curriculum and develop and pilot a model professional learning workshop for elementary school educators related to meaningful environmental educational experiences with an emphasis on student inquiry that supports the connections between the salmonid life cycle, healthy fish, and healthy watersheds. The project will accomplish this goal with a long-term, curriculum revision and professional development design process between Western Oregon University and the Oregon Department of Fish and Wildlife Salmon Trout Enhancement Program
Western Oregon University	State Institution of Higher Learning	OR	00J51701-1	\$149,501.00	1/16/2014	Project SITE (Students Involved With Their Education)	Project SITE will support a sub-award program and environmental stewardship through inquiry-based service learning projects for middle and high school students. The sub-awards will go to low-performing middle and high schools in low socio-economic and rural areas. The projects will range from \$2000- \$5000 and go to between 20 to 30 projects across Region 10. The projects will go to fund well-designed service learning projects that will seek to increase student engagement and commitment, provide ways for students to practically apply learning, and explore possible careers in the environmental field.
Willamette Riverkeeper	Not for Profit	OR	00J97001-3	\$50,000.00	3/1/2016	Superfund Technical Assistance	Funds will be used to help the community affected by the Portland Harbor site to understand information contained in EPA technical documents related to site cleanup and to understand the issues and decisions that need to be made related to site cleanup. An independent technical advisor(s) will be procured to review and inform the community on EPA documents related to the site cleanup. The technical advisor's information will be shared with the rest of the community. The technical advisors information will aid the community in the preparation of public comments and in more meaningfully participate in the cleanup decision-making process.

Applicant Name	Applicant Type	Applicant State	Grant No	Cumulative Award	Award Date	Project Title	Project Description
Willamette Riverkeeper	Not for Profit	OR	96059001-9	\$150,000.00	4/24/2014	Portland Harbor TAG	Funds will be used to help the community affected by the Portland Harbor site to understand information contained in EPA technical documents related to site cleanup and to understand the issues and decisions that need to be made related to site cleanup. An independent technical advisor(s) will be procured to review and inform the community on EPA documents related to the site cleanup. The technical advisor's information will be shared with the rest of the community. The technical advisors information will aid the community in the preparation of public comments and in more meaningfully participate in the cleanup decision-making process.
Citizens for a Healthy Bay	Not for Profit	WA	00062206-E	\$260,000.00	5/6/2014	CHB TAG - Amendment D	Recipient will use funds to help the community affected by the Commencement Bay Superfund site to understand information contained in EPA technical documents related to site cleanup and to understand the issues and decisions that need to be made related to site cleanup. Documents will be reviewed and the community informed on EPA documents related to the site cleanup. Information will be shared with the rest of the community. This information will aid the community in the preparation of public comments and more meaningful participation in the cleanup decision-making process.
Duwamish River Cleanup Coalition/Tech Advisory	Not for Profit	WA	96026701-F	\$225,000.00	2/3/2016	Superfund Technical Assistance Grant Program	Funds will use funds to help the community affected by the Lower Duwamish Waterway site to understand information contained in EPA technical documents related to site cleanup and to understand the issues and decisions that need to be made related to site cleanup. Documents will be reviewed and the community informed on EPA documents related to the site cleanup. Information will be shared with the rest of the community. This information will aid the community in the preparation of public comments and can more meaningfully participate in the cleanup decision-making process.
Duwamish River Cleanup Coalition/Tech Advisory	Not for Profit	WA	00J91901-4	\$119,984.00	11/30/2016	Duwamish Community Action for Clean Air	Due to poor air and strong evidence of related health issues in Duwamish Valley, the project will (1) compile existing information on the sources of diesel and other air pollution in the Duwamish Valley, (2) identify and fill data gaps with new monitoring and mapping efforts, and (3) take action to reduce exposure to air pollutants and the frequency and severity of asthma among local residents.
Duwamish River Cleanup Coalition/Tech Advisory	Not for Profit	WA	00J85401-2	\$65,000.00	3/28/2016	Urban Waters Small Grants	This amendment will allow Duwamish River Cleanup Coalition/Technical Advisory Group (DRCC/TAG) to further work with the Urban Waters Federal Partnership to populate a preliminary draft online map that identifies the different projects and stakeholders working in the Green-Duwamish River Watershed to better coordinate efforts and foster partnerships.
E3 Washington	Not for Profit	WA	00J71201-3	\$216,000.00	12/21/2016	The Educator-to-Educator Initiative for Student Learning	The Educator to Educator Initiative for Student Learning: A Pacific Northwest Model for Collective Impact Program seeks to work with environmental education leaders across EPA Region 10's four states to co-create a regional model for implementation of state environmental literacy plans, to implement the model and disseminate the model throughout, and beyond, EPA Region 10. Expanding the model to all four states will directly impact over 2,000 students, their teachers, school administrators, and community members from six regionally and culturally diverse school district-community teams involved.
Ei Centro de la Raza	Not for Profit	WA	01J27101-0	\$120,000.00	8/29/2016	Environmental Justice Collaborative	The Beacon Hill Environmental Health Collaboration aims to improve the neighborhood's environmental health through educational outreach, engagement and capacity building. The project will be implemented in a cross-culturally and linguistically-competent manner to ensure inclusive engagement for improving the health of its residents. The project approach incorporates all seven elements of the Environmental Justice Collaboration Problem Solving Model.
Green River College	State Institution of Higher Learning	WA	01J26301-0	\$85,773.00	8/5/2016	Environmental Education (EE)	This project provides environmental education (EE) within and about the Soos Creek Watershed reaching around 2,000 watershed residents. Activities include: training interns on how to create or adapt locally specific EE materials and how to communicate and present these materials; supporting the dissemination and public review of the Water Quality Improvement Report; assessing, selecting, preparing and implementing restoration plans with 28 property owners; and participating and distributing project data and best practices in nine or more regional/national EE conferences.
Hood Canal Salmon Enhancement Group	Not for Profit	WA	01J36301-0	\$91,000.00	9/1/2017	Hood Canal Environmental Exploration and Education Project	Project will increase environmental stewardship in the Hood Canal Watershed through hands-on experiential learning in the classroom, at summer camp and in after-school programming. The project targets low-income and tribal students to engage in watershed restoration work. Students will be engaged in the Salmon in the Classroom and Fun with Food programs, Enviro and Green Science, Technology, Reading, Engineering, Art and Math camps, and Students in the Watershed curriculum to get kids outside for environmental learning. A Green Science, Technology, Engineering and Math summit will be held.

Applicant Name	Applicant Type	Applicant State	Grant No	Cumulative Award	Award Date	Project Title	Project Description
Northwest Sustainable Energy for Economic Development	Not for Profit	WA	00J99501-0	\$30,000.00	6/26/2015	Renewable Energy Farm Walks	The goal of this project is to provide peer-to-peer education and resources regarding on-farm applications of renewable energy to farmers that are new to the idea and/or are in need of guidance on proper installation and usage. Four Renewable Energy Farm Walks will be conducted with complete follow up technical assistance to program participants. Farms walks will focus on renewable energy technology use and will be offered throughout Washington state in counties that have high representation of agricultural producers and good resource potential for renewable energy generation, particularly solar and wind energy.
Oxbow Center for Sustainable Agriculture & the Environment	Not for Profit	WA	01J26201-0	\$90,474.00	8/5/2016	Environmental Education (EE)	The grantee will partner with a nearby school to provide 300 low-income minority kindergarteners, 1100 other students, and over 200 teachers, staff and volunteers with a strong environmental education program focused on access to the outdoors and connections between agriculture, conservation, and nature. This project will be delivered at the Oxbow facilities, through in-class sessions at the school, and in outdoor sessions at the school's green spaces.
Pac NW Poll Prev Res Center	Not for Profit	WA	00J69901-1	\$106,305.00	8/12/2014	Source Reduction Assistance	The grantee will use the additional funding to pay for speaker's fees for a Lean expert to present at their 2014 P2 Regional Roundtable.
Pacific Education Institute	Not for Profit	WA	01J05101-0	\$91,000.00	7/1/2015	Environmental Education	This project will train informal educators to support teachers of grades 3-12. They will hire an overall Coordinator to recruit and select the Watershed Facilitators focused on/certified in their Columbia River FieldSTEM program. The applicant will provide a 5-day training in February 2016 to certify 10 Watershed Facilitators to then be able to provide a workshop for teachers in their area. Ten Watershed Facilitators will provide a 6-hour FieldSTEM workshop to at least 12 teachers, afterwards teachers will give at least 1 field experience to students during the 2016-17 school year.
Pacific NW Pollution Prevention Resource Center	Not for Profit	WA	00J91701-0	\$147,000.00	7/7/2014	Source Reduction Assistance	Support for a the northwest pollution prevention (P2) network; the Economy Energy and Environment (E-3) program; P2 technical assistance for the sports industry (both collegiate and professional); efforts to reduce the use of toxics through green chemistry, safer chemicals, green labs, and an Oregon eco-certification program.
Pacific NW Pollution Prevention Resource Center	Not for Profit	WA	01J07501-2	\$138,200.00	9/13/2016	Source Reduction Assistance Grant	Project supports P2 technical assistance in Region10 states by providing funding to plan and implement the R10 P2 roundtable.
Pacific NW Pollution Prevention Resource Center	Not for Profit	WA	01J40401-0	\$95,000.00	9/28/2017	Source Reduction Assistance Grant	Grantee will provide technical assistance to businesses in Region 10, including auto body repair shops to promote the conversion from solvent-based to water-based paints and coatings to reduce Volatile Organic Compounds (VOC) emissions. Grantee will also support the Region 10 P2 Roundtable, develop factsheets and webinars, and facilitate outreach and communications with states.
Port Townsend Marine Science Society	Not for Profit	WA	00J54801-1	\$56,848.00	3/10/2014	Urban Waters Project	This Cooperative Agreement provides funding to Port Townsend Marine Science Society (PTMSS) to create a new, permanent, educational and interactive exhibit at the Port Townsend Marine Science Center (PTMSC) with the theme "Toxics in the Marine Environment". Volunteers will assist with designing the exhibit by participating in focus groups. Additionally, volunteers will collect 25 roof run-off samples from the Port Townsend and Seattle area and sent to a lab to be analyzed for approximately 100 toxic compounds; and volunteers will get the opportunity to collect tissue samples from deceased seals that will be analyzed for toxic chemicals and phthalates.
Seattle Tilth Association	Not for Profit	WA	00J99201-0	\$29,931.00	7/2/2015	South King County Just Garden Project	The South King County Just Garden project will result in the construction of at least 90 garden beds for low income residential complexes, low income families, and organizations serving low income individuals and families in South King County communities with low access to "critical opportunity structures such as high quality education, a safe environment, sustainable employment, political empowerment and outlets for wealth building."
The Lands Council	Not for Profit	WA	01J21601-0	\$45,250.00	6/30/2016	Urban Waters Small Grants	The Lands Council (LC) will teach environmental literacy and green job preparedness - with emphasis on stormwater pollution and low impact development (LID) techniques - to Geiger Corrections Center inmates and to two under-served and/or alternative high schools (culminating in the design of a LID project). Also the LC will conduct door-to-door outreach in the surrounding neighborhoods to educate residents about stormwater pollution impacts and offer free tree seedlings to mitigate these effects.
Three Degrees Warmer	Not for Profit	WA	01J36901-0	\$30,000.00	9/6/2017	Environmental Justice Small Grants Program	The project proposes to initiate operation of a biochar reactor (a relocatable device that converts human waste into pathogen-free biochar) by hiring local workers from the community that will operate and manage the reactor, track system performance, and lead community educational programming about the reactor and its benefits. Outreach activities will include community workshops, household surveys, radio announcements, and long-term planning town halls. Biochar has proven to be useful as a soil amendment, for odor elimination, and to mitigate pollution at toxic waste sites.

UofWA - University of Washington	State Institution of Higher Learning	WA	01J11901-2	\$91,000.00	8/31/2017	Culture-Based Environmental Educations for Tomorrow's Tribal Leaders	The project will enhance Tribal middle school education by providing interactive classroom presentations on marine health that highlight whale research methods. These methods involve an exciting mix of noninvasive wildlife monitoring methods and the center's specially trained detection dogs (which are used to sample large areas for scat of targeted wildlife species). Inquiry based classroom lessons are featured with hands-on, cooperative based activities that address cultural content and national learning standards. Leadership workshops are focused on connecting students to conservation and health concepts through outdoor learning and cultural based actions.
UofWA - University of Washington	State Institution of Higher Learning	WA	00J30301-A	\$5,518,880.00	8/15/2016	University of Washington Puget Sound Institute	This amendment is for supplemental funding and extension of the project and budget period for an additional nine months to end on Sept 30, 2017. With this additional funding, the Puget Sound Institute will continue to support the development and refinements of implementation strategies and generate a number of technical assessment reports on science, monitoring and ongoing programs and existing statues related to Implementation Strategies. The project and budget period shall be extended to September 30, 2017.
Washington State University	State Institution of Higher Learning	WA	00J66001-2	\$48,000.00	9/22/2014	Reducing Public Exposure	The Washington State University project will work with residential programs for both new and existing homes to educate and support these programs to be aware of and to implement healthy indoor air quality; Assist schools and public buildings to address their individual Indoor Air Quality challenges and complete adoption of EPA Tools for Schools; Continue to collaborate with a wide variety of groups, organizations and agencies; Will loan Indoor Air Quality instrument and equipment loans coupled with measurement skills training.
